

# THE CAMPAIGN FOR QUINCY NOTRE DAME

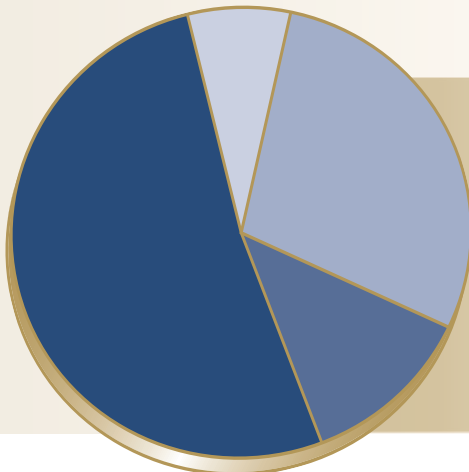

Quincy Notre Dame finds itself at a window of opportunity, uniquely positioned to celebrate our past while looking to meet the needs of our students, families and community both now and in the future.

## NEEDS

- Our science labs are in desperate need of being expanded and updated with the latest technology and opportunities.
- Additional classrooms are needed to enhance and expand our current curriculum.
- Restrooms across from the main office and library need updating.
- New guidance and principal offices in the front of school are essential for easier access by students and parents.
- Current electrical power supply and HVAC upgrades are necessary for the functionality and safety of those in our school.
- The QND Fund Drive has to remain an ongoing priority in order to keep the cost of tuition affordable to all families.
- The QND Endowment needs to continue to grow in order to plan to secure the future of our school.
